8. He must carry with him, when plying for hire, the cart license for the then current half-year, and produce it whenever required for the inspection of all Municipal and Police Officers and the hirer of the cart.

(e). *Regarding the height and mode of construction of buildings.*

1. Whenever any old masonry building has been taken down to an extent exceeding one-half of such building, such to be measured in cubic feet, the re-building of the portion thereof shall be deemed to be the erection of a new building, and such portion shall be subject to the regulations of the Act and to the bye-laws respecting new buildings.

2. Every masonry building shall have its outer walls constructed of brick or other hard and incombustible substance, and the foundation shall be the solid ground, or concrete, or other solid substructure on which the footings shall rest.

3. Every person who shall erect a new building shall construct every wall of such building so as to rest upon proper footings. He shall cause the projection at the widest part of the footings of every wall on each side of such wall to be at least equal to one-third of the thickness of such wall at its base, unless an adjoining wall interferes, in which case the projection may be omitted where that wall adjoins. All walls of houses intended to be used as dwelling houses shall have a damp proof course at or above the level of the ground floor.

He shall also cause the diminution of the footings to be in regular offsets, or in one offset at the top of the footings, and he shall cause the height from the bottom of the footings to the base of the wall to be at least equal to two-thirds of the thickness of the wall at its base.

4. In the case of any building exceeding one storey in height, every wall shall be properly bonded and solidly put together with mortar, and no part of such wall shall over-

hang any part underneath it, and all return walls shall be properly bonded together.

This rule is not intended to apply to cornices or mouldings where otherwise admissible.

5. Every wall and every return wall of such building shall be of such thickness as may be considered safe by the Commissioners having regard to the height of the buildings, the materials of which it is constructed, and the purposes to which it will be put; provided that it shall not be lawful for the Commissioners to require more than is required by Appendix I.

6. All beams and girders shall be supported by a sufficient breadth of brickwork, stone or other solid substance to secure the stability of such beam or girder.

7. The roof of all buildings shall be externally covered with some incombustible material. Also every gutter shoot or trough in connection with the roof of such building shall also be constructed of incombustible materials.

8. Every person intending to construct an oil, flour or soorky mill or an iron foundry shall, at the time of applying for sanction to the erection thereof under section 236 or 247, distinctly state that the building or hut will be used for that purpose.

13. Such roads shall remain private property, but shall be kept open for the passage of conservancy carts, without thereby conveying any right of property in them to the Municipality.

14. No new huts shall be erected at a greater distance than 100 feet from the nearest part of one of the above roads unless otherwise specially sanctioned by the Commissioners.

15. The space between the walls of any two new huts or of any new hut and any adjacent existing hut or building shall not be less than three feet for ventilation. But this rule will not apply to two or more huts built in continuation and composing one "bari."

16. Every new hut which may be built abutting on a road or footpath, whether public or private, shall be so built as not to project on the road or footpath, and also shall be so constructed as not to allow rain-water from its roof to fall upon or injure the same.

18. By section 247 every new hut must have a plinth at least two feet above the level of the centre of the nearest public road, but this will not suffice unless the ground on which it stands is also sufficiently raised to admit of surface drainage.

19. Such surface drains may be required by the Commissioners for the drainage of all new huts as the circumstances of the bustee and the position of the nearest sewer may render practicable.

20. When any new drain has to be constructed for the benefit of any hut or huts, the owners of which are tenants-at-will, notice will be served on the owner of the land, and if the drain is constructed by the Commissioners in default, he will be charged with the cost thereof, but if such drain fall into subsequent disrepair after construction, the owner of the hut or huts for whose benefit the drain was constructed shall be charged with the cost of its repair.

2. Every corpse brought to a burning-ghât, without being accompanied by a certificate in the form prescribed in section 190, Act II (B.C.) of 1888, shall be examined forthwith by the Sub-Registrar, without touching the corpse, who, upon being satisfied that death has resulted from natural causes, shall enter, without fee, in the register kept for the purpose, the particulars specified in the abovementioned form, every such entry being made in order from the beginning to the end of the book. When a corpse is accompanied by a certificate from a Registrar or Medical Officer, the Sub-Registrar shall file such certificate, and then permit the corpse to be burnt.

3. If the Sub-Registrar has any reason to suspect that death has not resulted from natural causes, he shall send immediate intimation thereof to the nearest police-station, and in the meantime withhold permission to have the corpse burnt. Where there is no reason for such suspicion, the corpse shall be burnt within four hours after its arrival.

4. The Sub-Registrar shall see that no corpse, or portion of a corpse, shall on any account be allowed to be thrown into the river. He shall take particular care that no corpse, or portion of a corpse, except the navel, shall remain without being completely reduced to ashes, or be removed in any other condition. The charge to be made for the burning of a body will be on a scale laid down by the Commissioners.

5. The Sub-Registrar shall submit to the Health Officer a weekly return every Monday of all deaths registered at the ghât. This return shall contain the particulars specified in schedule 11 of Act II (B.C.) of 1888, and shall be accompanied by the certificates granted by the several Registrars or medical men during the week separately arranged in different bundles according to the several wards to which they relate.

6. The Sub-Registrar shall be very careful to see that all the belongings of a corpse, such as clothes, mats, bed and bedding, &c., brought with the corpse, are burnt, and none of the aforesaid things shall on any account be allowed to be removed from the ghât by the Domes or any other person. This prohibition shall not apply to any shawl or other valuable apparel brought with dead bodies.

7. Corpses may be burnt both during the day and night, but the Sub-Registrar in charge of the ghât shall see that the ashes and sweepings are removed daily, and that the burning-ghât is always kept clean.

8. The Sub-Registrar shall allow persons to burn the corpses of their friends and relatives, each according to the rites of his religion, without any interference.

9. No child or foetus is allowed to be buried on the riverside.

10. The Domes in charge are strictly prohibited to drink spirituous liquors within the burning-ground enclosure, or to be in a drunken state when on duty. The Sub-Registrar shall see that this rule is strictly enforced. He shall also remove from the burning-ghât all persons who are drunk or disorderly.

11. All persons connected with the burning-ghât must be civil and attentive to those who come there to have dead bodies burnt.

14. The Brahmin shall not demand any fee, gratuity or reward other than that authorized by the Commissioners for the performance of the necessary religious rites, and it shall be his duty to attend immediately on being sent for at all hours of the day or night, and to officiate as priest and cause the performance of the ceremony, and he shall be considered to be a servant of the Commissioners for the purpose of this rule.

15. The Brahmin shall on no pretence enter within the walled enclosure of the burning-ground, except when called by the relatives of deceased persons to officiate as priest, nor shall he remain therein after his services are completed.

16. Should the Brahmin demand any fee, reward or gratuity of any kind whatever in excess of the fee fixed in the tariff, or enter the enclosure except when sent for, or remain therein after his services have been completed, or after he has been required by the Sub-Registrar or other officer of the Municipality to quit the same, or fail to attend when sent for, he shall be liable to dismissal at the discretion of the Commissioners and to be ejected from the burning-ground. Provided always that no person coming to burn a corpse will be prevented from bringing with him his family priest should he prefer to have the cremation ceremony performed by him. In such a case, however, the party who brings his own priest to the burning-ground shall be bound to allow the Brahmin his usual fee.

17. The contractor shall at all times keep on hand a sufficient supply of fuel and the other necessary articles named in the tariff; should he fail to do so, or neglect, or refuse to supply the same at any hour of day or night, or fail to keep his shop open at all times for the purpose of supplying the same, or use false or short weights, or supply inferior or unsuitable articles or create any disturbance within the limits of the Commissioners' lands, his license shall be cancelled, and he shall be summarily ejected from the land and be further liable to criminal prosecution as a trespasser.

18. Persons coming to the ghât for burning dead bodies shall be bound to purchase all the articles named, and the quantities specified in the tariff, from the contractor. But they will be at liberty to provide themselves with whatever else they may require for cremation, as also all the articles therein named but in excess of the quantities specified in the tariff, or, when the contractor fails to supply them, from wheresoever they like; and the contractor shall not on any account interfere with persons bringing articles for burning dead bodies from outside.

## REVENUE DEPARTMENT.

### A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in  
the Revenue and Agricultural Department.

The first two volumes of this work are now ready for  
issue, and intending subscribers are invited to register  
their names with the Superintendent of Government  
Printing, Calcutta.

The Dictionary is intended to deal with the products of  
India—animal, vegetable, and mineral; each product  
being treated after a uniform plan, the paragraphs of  
which give the scientific, vernacular, and European  
names; habitat or source; history; properties and uses,  
both chemical and industrial; trade statistics; markets,  
&c. The work is arranged alphabetically according to  
scientific nomenclature, but commercial and important  
vernacular names are also given as cross references so  
that little difficulty need be experienced in finding the  
account of a product even when its scientific name is  
unknown to the reader.

An important feature of the Dictionary consists in the  
fact that derived information is in every instance given  
under quotation marks, and with a reference to the  
original publication. Numerous contributions have,  
however, furnished the results of new discoveries, and  
confirmed the vernacular names; so that the Dictionary  
is not only a complete compilation of published infor-  
mation, but has been brought abreast of the most recent  
inventions and discoveries.

Volume I contains the letters A and B, and consists of  
559 royal pages; Volume II embraces the letter C in  
689 pages; Volume III is in course of preparation, and  
will contain the letters D, E, F, and G. The whole  
work will, it is expected, be completed in six volumes  
by 1891; but a seventh volume may also be issued con-  
sisting of an index to all the vernacular and other names  
contained in the Dictionary; and this as a work of re-  
ference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

\*.No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

- REVENUE DEPARTMENT.**
- A Dictionary of the Economic Products of India.**
- By DR. GEO. WATT, C.I.E.,  
Reporter on Economic Products.
- Published under the authority of the Government of India in the Revenue and Agricultural Department.
- The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.
- The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.
- An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.
- Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

\* For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

\*\* No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

## REVENUE DEPARTMENT.

### A Dictionary of the Economic Products of India.

By DR. GHO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

\*.No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

## RULES FOR THE SUPPLY OF MAPS AND FOR THE EXECUTION OF LITHOGRAPHIC OR PHOTOGRAPHIC WORK ON THE PUBLIC SERVICE OR ON PAYMENT.

## A.—Supply of Printed Maps.

1. The Map Record and Issue Office, Calcutta, supplies printed maps from stock on book-debit on the public service. It also arranges for the colouring and mounting of maps when required. All charges for freight and postage of parcels must be borne by applicants themselves. Such incidental charges as colouring, mounting, and binding maps, as well as packing cases, are *not* to be paid in cash, but will, together with the price of the maps, be adjusted by book-debit, for which purpose it is absolutely necessary that the triplicate copy of the invoice should be signed and promptly returned to this Office.

2. Maps can also be obtained for non-official use from the above mentioned Office on payment *prepaid*, as well as from the following Local Agents, who, however, have no authority to issue maps on the public service:—

ALLAHABAD—Curator of Government Books.  
AHMEDABAD—Huzoor Deputy Collector.  
LAHORE—Munshi Gulab Sing.  
MADRAS—Messrs. Higginbotham & Co.  
LONDON—Mr. Edward Stanford.  
NAGPUR—Curator of Government Books.

3. All applications for maps on the public service should be made to the Assistant Surveyor-General, in charge of the Map Record and Issue Office, 13, Wood Street, Calcutta,

and should give full particulars as to the kind of map and its scale, and any other information that will guide this Office in knowing exactly what is required. In the case of confidential maps the previous sanction of the Foreign Office must be obtained (*N. B.* Trans-frontier maps are confidential.)

4. The mode of transit and address or station to which the maps are to be sent should invariably be specified.

5. Indent forms for maps on the public service can be obtained from the Assistant Surveyor-General, in charge of the Map Record and Issue Office.

6. Lists of all newly published maps are periodically notified in the *Gazettes of India* and Local Governments.

7. All indents for printed maps on the public service must be duly approved and countersigned by the heads of departments, or other authorized officers under whom indenting officers may be serving, before they can be complied with, viz. :—

#### *B.—Requisitions for Lithographic or Photographic Work.*

9. The Photographic and Lithographic Office at Calcutta reproduce maps, plans, and drawings by lithography and by photography on book-debit on the public service, and on cash payment in certain special cases only. The Trigonometrical Branch Office at Dehra Dun does not, as a rule, undertake work for other Departments.

10. As a rule, drawings in line can be reproduced by photozincography, if suitably drawn in accordance with instructions which may be obtained on application to the Assistant Surveyor-General, Photographic and Lithographic Office, No. 14, Wood Street, Calcutta. Coloured and other drawings unsuitable for photozincography must be lithographed, but the cost is considerably greater.

11. Photographs if required in large numbers can be cheaply reproduced by the photo-collotype and heliogravure processes from suitable negatives.

12. All applications for Lithographic or Photographic work on the public service should, if possible, be submitted in the following form, which is not required in duplicate. Blank forms may be obtained on application to the Assistant Surveyor-General, Surveyor-General's Office, or as in Rule 10.

Indent No. \_\_\_\_\_ on the Photographic and Lithographic Office, S. I. Dept., for \_\_\_\_\_ to be reproduced by \_\_\_\_\_ for the use of \_\_\_\_\_ Dated \_\_\_\_\_ 189 \_\_\_\_\_.

Description of map or drawing.	Number of original sheets.	Scale.	Scale of reproduction.	Number of copies required.	Quality and size of paper to be printed on.	Purpose for which required.	How and where to be despatched and other special instructions.
							The address which should be affixed to the parcels or cases to be distinctly given in full. Abbreviations some times lead to mistaken.

I do hereby certify that the maps, &c., specified in this indent, are indispensably necessary to the best of my knowledge and belief, after the most careful examination.

Recommended.

Countersignature of approving authority.

Signature of Indenting Officer, with designation of appointment in full.

13. All necessary information as to the scale of reproduction, number of copies required, quality and size of paper, mode of transit, and address to which proofs and printed copies are to be despatched, should be shown on the face of the indent and not in a covering letter, unless more explanation is required than can be given on the face of the indent.

14. All indents must be duly approved and countersigned by the heads of departments, or the Government under which indenting officers may be serving before they can be supplied, viz. :—

Survey of India Dept., Trigonometrical Branch,	by Deputy Surveyor-General	} or by Surveyor-General,

and they should be addressed to the Assistant Surveyor-General, in charge of the Photographic and Lithographic Office, Calcutta, at No. 14, Wood Street.

15. Lithographic and Photographic work will be undertaken on behalf of Municipalities, Port Trusts, Railway Companies, the Trustees of the Indian Museum, and other quasi-official bodies for cash payment on indents in the form prescribed above. Private work cannot be undertaken, except in very special cases, when it cannot possibly be done otherwise, and when the office can take it up without inconvenience. On such work an extra charge of 10 per cent. will be made over and above the usual rates. In all cases where cash payment is required, an estimate will be given, and the amount must be remitted before the work can be put in hand.

16. As a rule, maps and drawings reproduced by lithography or photography are not coloured, but in special cases, where colouring is essential, it can be done and will be charged for on book-debit as prescribed under Rule 1. Packing charges will be dealt with in the same way, but transit charges both ways must be paid by indenting officers.

17. To enable the indenting officer, as well as the officer who countersigns and finally passes an indent, to know the cost involved thereby, a *Scale of Charges* showing the average ordinary price of each description of work executed in the Photographic and Lithographic Office can be obtained on application.

18. Indents should be regulated, not according to what an officer would like to have, but by what is absolutely necessary. It is in all cases an economy to have maps and drawings reproduced on as small a scale as possible.

*C. — Requisitions for Maps required to be specially prepared.*

19. In cases where maps are required on service for special purposes, as for illustrating reports for which none of the published maps are suitable, application should be made by letter giving full information, addressed to the Assistant Surveyor-General, in charge of the Drawing Office, 13, Wood Street Calcutta.

Lithographic and Photographic work will be undertaken on behalf of Municipalities, Port Trusts, Railway Companies, the Trustees of the Indian Museum, and other quasi-official bodies for cash payment on indents in the form prescribed above. Private work cannot be undertaken, except in very special cases, when it cannot possibly be done otherwise, and when the office can take it up without inconvenience. On such work an extra charge of 10 per cent. will be made over and above the usual rates. In all cases where cash payment is required, an estimate will be given, and the amount must be remitted before the work can be put in hand.

16. As a rule, maps and drawings reproduced by lithography or photography are not coloured, but in special cases, where colouring is essential, it can be done and will be charged for on book-debit as prescribed under Rule 1. Packing charges will be dealt with in the same way, but transit charges both ways must be paid by indenting officers.

17. To enable the indenting officer, as well as the officer who countersigns and finally passes an indent, to know the cost involved thereby, a *Scale of Charges* showing the average ordinary price of each description of work executed in the Photographic and Lithographic Office can be obtained on application.

18. Indents should be regulated, not according to what an officer would like to have, but by what is absolutely necessary. It is in all cases an economy to have maps and drawings reproduced on as small a scale as possible.

C. — *Requisitions for Maps required to be specially prepared.*

19. In cases where maps are required on service for special purposes, as for illustrating reports for which none of the published maps are suitable, application should be made by letter giving full information, addressed to the Assistant Surveyor-General, in charge of the Drawing Office, 13, Wood Street Calcutta.

H. R. THUILLIER, Col., R.E.,  
Surveyor-General of India.

## REVENUE DEPARTMENT.

**A Dictionary of the Economic Products of India.**

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

\*. No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.
